### 161.32 Planned Zoning District

(A) *Applicability.* To be considered for a Planned Zoning District, the applicant shall meet all of the following criteria:

(1) *Location.* Any property located within the city limits is eligible for a Planned Zoning District. Upon City Council approval, an owner or developer of a specific piece of property located within the City's designated planning area may be authorized to submit a Planned Zoning District application in conjunction with an annexation request, but final approval of the PZD will not be effective until said property is annexed into the City of Fayetteville.

(2) *Size.* There shall be no minimum or maximum tract size for a PZD application.

(B) *Purpose.* The intent of the Planned Zoning District is to permit and encourage comprehensively planned zoning and developments whose purpose is redevelopment, economic development, cultural enrichment or to provide a single-purpose or mixed-use planned development and to permit the concurrent processing of zoning and development. The City Council may consider any of the following factors in review of a Planned Zoning District application.

(1) *Flexibility.* Providing for flexibility in the distribution of land uses, in the density of development and in other matters typically regulated in zoning districts.

(2) *Compatibility.* Providing for compatibility with the surrounding land uses.

(3) *Harmony.* Providing for an orderly and creative arrangement of land uses that are harmonious and beneficial to the community.

(4) *Variety.* Providing for a variety of housing types, employment opportunities or commercial or industrial services, or any combination thereof, to achieve variety and integration of economic and redevelopment opportunities.

(5) *No negative impact.* Does not have a negative effect upon the future development of the area;

(6) *Coordination.* Permit coordination and planning of the land surrounding the PZD and cooperation between the city and private developers in the urbanization of new lands and in the renewal of existing deteriorating areas.

(7) *Open space.* Provision of more usable and suitably located open space, recreation areas and other common facilities that would not otherwise be required under conventional land development regulations.

(8) *Natural features.* Maximum enhancement and minimal disruption of existing natural features and amenities.

(9) *Future Land Use Plan.* Comprehensive and innovative planning and design of mixed use yet harmonious developments consistent with the guiding policies of the Future Land Use Plan.

(10) *Special Features.* Better utilization of sites characterized by special features of geographic location, topography, size or shape.

(11) *Recognized zoning consideration.* Whether any other recognized zoning consideration would be violated in this PZD.

(C) *Rezoning.* Property may be rezoned to the Planned Zoning District by the City Council in accordance with the requirements of this chapter and Chapter 154, Amendments.

(1) Each rezoning parcel shall be described as a separate district, with distinct boundaries and specific design and zoning standards. Each district shall be assigned a project number or label, along with the designation "PZD". The rezoning shall include the adoption of zoning standards and a specific master plan.

(2) All uses identified within §162 Use Units of the Unified Development Code may be allowed as permissible uses or conditional uses, unless otherwise specified, subject to City Council approval of the Planned Zoning District request.

(3) *Residential density.* Residential densities shall be determined on the basis of the following considerations:

(a) The densities of surrounding development;

(b) The densities allowed under the current zoning;

- (c) The urban development goals and other policies of the city's Future Land Use Plan;
  - (d) The topography and character of the natural environment; and
  - (e) The impact of a given density on the specific site and adjacent properties.
- (4) Building setback. There shall be no minimum building setback except as may be determined by the Planning Commission and City Council during review of the zoning plan based on the uses within the development and the proximity of the development to existing or prospective development on adjacent properties. Greater setbacks may be established by the Planning Commission or City Council when it is deemed necessary to provide adequate separation from adjacent properties.
- (5) *Building height*. There shall be no maximum building height except as may be determined by the Planning Commission and City Council during the review of the zoning plan based on the uses within the development and the proximity of the development to existing or prospective development on adjacent properties. A lesser height may be established by the Planning Commission or City Council when it is deemed necessary to provide adequate light and air to adjacent property and to protect the visual quality of the community.
- (6) *Building area*. The Planning Commission and City Council shall review specific proposed lot coverages which generally correspond to the guidelines for lot coverage in the respective residential, office, commercial or industrial district which most depicts said development scheme.
